Senior .NET Solution Architect

Location: Brussels

Are you ready to take your career to the next level?
Do you thrive in environments that challenge and inspire you?
Would you like to grow within a team that values both excellence and enjoyment at work?

Taleo Consulting is an international management consulting group with offices in **France, Luxembourg, Belgium, The Netherlands, Switzerland, Spain, Singapore, Portugal, and Italy**.

We've grown into a team of **450+ talented professionals** across **10 offices worldwide,** partnering with leading organizations in **Financial, Life Sciences, Retail,** and **Energy** - Sectors, to drive transformation and deliver lasting impact.

At Taleo, you'll find more than just a job. You'll join a community of ambitious consultants who share a passion for growth, innovation, and teamwork. Together, we create an environment where you can develop your skills, take on new challenges, and truly make a difference.

What Will You Do?
At Taleo Consulting, we believe that **our growth starts with our people**. When our consultants thrive, so do our clients.
Motivated, curious, and passionate professionals make a real impact, not only on their own careers but also on the success of the organizations they support.

We're looking for individuals who **embody our values** and help us foster strong, trust-based relationships with both our **clients** and our **teams across the globe**.
Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for **a Senior .NET Solution Architect** to join our journey.

About the role

For one of our clients, we are looking for an experienced **.NET Solution Architect** to support a major application modernisation initiative.

The role focuses on defining and governing the target architecture, conducting technical design reviews and guiding development teams through the transition from legacy .NET 4.x applications towards modern .NET 10 technologies.

You will play a key role in ensuring architectural consistency, scalability, maintainability and alignment with the organisation's technology standards.

Your responsibilities

- **Architecture Design:** Define and document application architecture and technical solutions, ensuring alignment with the target architecture and IT strategy.
- **Technical Governance:** Establish and enforce architectural standards, principles and best practices across development teams.
- **Design Reviews:** Conduct architecture and technical design reviews, challenge proposed solutions and ensure their quality and consistency.
- **Application Modernisation:** Drive and support the migration from legacy .NET 4.x applications to modern .NET 10 technologies.
- **Messaging & Integration:** Define and review messaging and integration architectures based on technologies such as RabbitMQ, NServiceBus and Dapr.
- **Cloud-Native Architecture:** Contribute to the definition of Kubernetes-based target architectures and containerised application environments.
- **Technical Guidance:** Provide architectural guidance to development teams, support technical decision-making and ensure the implementation of architectural recommendations.
- **Stakeholder Collaboration:** Work closely with developers, technical leads, infrastructure teams and other IT stakeholders.

Your profile

- Strong experience as a **.NET Architect, Solution Architect or Senior .NET Developer with architectural responsibilities**.
- Solid expertise in the .NET ecosystem, particularly legacy .NET Framework 4.x and modern .NET technologies.
- Experience designing and governing application architectures in complex IT environments.
- Proven experience conducting technical design reviews and defining architectural standards.
- Strong understanding of messaging and event-driven architectures.
- Experience with one or more of the following technologies:
    - RabbitMQ
    - NServiceBus
    - Dapr
    - Kubernetes
- Experience with application modernisation and legacy system migration.
- Strong analytical and problem-solving skills, with the ability to challenge technical decisions and provide architectural direction.
- Excellent communication skills and the ability to collaborate with both technical and non-technical stakeholders.

Languages

- Fluent in English.
- Good command of either French or Dutch.

How do we imagine our future ?
We attract top talent and empower them with the right environment to excel and drive collective success.

Why should you join us?
By joining Taleo, you'll become part of a **talented, international, and dynamic team**.
You'll benefit from **real career growth opportunities**, continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.

Share your CV and take the next step in your journey with Taleo
