Context: you will join the OTC Pricing / Valuations team of a leading asset management player, within a project to onboard a large set of portfolios and securities onto Aladdin. The team needs to explore instrument set-up, analyse term sheets and cross-check them with Aladdin functionalities, and to build a scalable counterparty price collection environment able to onboard a wide range of statements and counterparty platforms.

Your mission and tasks:

- Assist the OTC Valuations team in setting up new flows to deliver accurate prices to the fund accountant
- Help set up a new control environment, requiring a solid understanding of OTC derivatives, risk and time constraints
- Automate controls, escalation processes and price delivery to the fund accountant
- Explore instrument set-up, analyse term sheets and cross-check them with Aladdin functionalities in order to onboard as many securities as possible
- Onboard statements and counterparty platforms, and develop an automated way of incorporating counterparty prices into Aladdin

How do we imagine our future Business Analyst?

- Good knowledge and experience in operations, financial instruments and asset management
- Understanding of OTC derivatives, risk and time constraints
- Efficient, result-oriented and analytical
- Stress resistant, with a positive mindset
- Fluent in English and French

Practical information:

- Languages: fluent English and French
- Location: to be confirmed

We attract top talent and empower them with the right environment to excel and drive collective success.
Why should you join us?
By joining Taleo, you'll become part of a **talented, international, and dynamic team**.
You'll benefit from **real career growth opportunities**, continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.
