Senior .NET Architect

Location: Belgium (2 days/week on site, 3 days remote)

Are you ready to take your career to the next level?
Do you thrive in environments that challenge and inspire you?
Would you like to grow within a team that values both excellence and enjoyment at work?

Taleo Consulting is an international management consulting group with offices in **France, Luxembourg, Belgium, The Netherlands, Switzerland, Spain, Singapore, Portugal, and Italy**.

We've grown into a team of **450+ talented professionals** across **10 offices worldwide,** partnering with leading organizations in **Financial, Life Sciences, Retail,** and **Energy** - Sectors, to drive transformation and deliver lasting impact.

At Taleo, you'll find more than just a job. You'll join a community of ambitious consultants who share a passion for growth, innovation, and teamwork. Together, we create an environment where you can develop your skills, take on new challenges, and truly make a difference.

What Will You Do?
At Taleo Consulting, we believe that **our growth starts with our people**. When our consultants thrive, so do our clients.
Motivated, curious, and passionate professionals make a real impact, not only on their own careers but also on the success of the organizations they support.

We're looking for individuals who **embody our values** and help us foster strong, trust-based relationships with both our **clients** and our **teams across the globe**.
Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Senior .NET Architect** to join our journey.

You will work on a project for a key player in the European energy sector, helping build a sustainable, green and reliable energy infrastructure.
Your mission:

- Technically lead a portfolio of complex applications across several domains (Blazor front-end)
- Support experienced developers on architecture design and challenge technical choices with tech leads and product owners

- Integrate, maintain and support an existing team; modernise the applications and migrate services to .NET 10 with a modern architecture targeting Kubernetes within 2 years
- Coach and coordinate several full-stack .NET teams working on micro-services products, as an active player in scrum teams
- Define the target architecture vision and run collaborative technical sessions with developers and architects
- Tech stack: C# .NET 10 / .NET 4.x, SQL / MongoDB, Blazor, Hangfire, RabbitMQ, Clean Architecture, NServiceBus to Dapr

How do we imagine our future Senior .NET Architect?

- Minimum 4 years of experience as a .NET Architect
- English is a must, with very good knowledge of Dutch or French
- Strong communicator, able to coach developers and explain technical topics to non-technical people
- Experience leading dev teams in scrum, handling priorities and emergencies efficiently
- Analytical and structured, with strong technical investigation skills and a good technical watch

Practical information:

- Work mode: 2 days/week on site, 3 days/week remote
- Non-EU candidates must hold a valid work permit and residence permit for Belgium

We attract top talent and empower them with the right environment to excel and drive collective success.
Why should you join us?
By joining Taleo, you'll become part of a **talented, international, and dynamic team**.
You'll benefit from **real career growth opportunities**, continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.

Share your CV and take the next step in your journey with Taleo
